

ARYAN RAJ

Data Scientist | Machine Learning & Analytics Engineer

Noida, UP, India • +91 8340177620 • aryanjaiswal11132@gmail.com • linkedin.com/in/aryanrajcse • github.com/gmraj11132-tech

PROFESSIONAL SUMMARY

Analytical and code-first Computer Science Engineer (B.Tech, 8.0 CGPA) specialized in predictive machine learning, statistical exploratory data analysis (EDA), and relational database engineering. Experienced building end-to-end data pipelines from ingestion and automated feature engineering through XGBoost classification and executive BI dashboarding. Completed verified AI/ML internships at IIT BHU (Grade A) and NV Enterprises, certified in Data Science by IBM and Tata Group. Seeking Data Scientist, Data Analyst, or Machine Learning Engineer roles.

TECHNICAL SKILLS & COMPETENCIES

Programming Languages: Python 3.12 (Advanced), SQL (PostgreSQL, MySQL), Java 21, TypeScript, JavaScript (ES6+), C++
Data Science & ML: Pandas, NumPy, Scikit-Learn, SciPy, XGBoost, Statsmodels, Feature Engineering, EDA, Cross-Validation, ROC-AUC
Databases & Warehousing: PostgreSQL, MySQL, SQLite, Complex Joins, Window Functions, CTEs, Aggregation Pipelines, Schema Normalization
AI & Generative Models: Gemini 2.5 Flash, Prompt Engineering, RAG Pipelines, Vector Search, LangChain, Tesseract.js (OCR)
Visualization & Tools: Matplotlib, Seaborn, Plotly, Power BI, Streamlit, Git, GitHub, Jupyter Labs, Docker, Postman, Linux

FEATURED DATA SCIENCE & ANALYTICS PROJECTS

Customer Churn & Lifetime Value Prediction Engine Python • Pandas • Scikit-Learn • XGBoost • Seaborn • Streamlit
End-to-End Supervised ML Pipeline with Feature Attribution & Interactive Dashboard

- **Built an end-to-end classification pipeline** analyzing subscriber transactions, tenure, and support history, achieving an **89% ROC-AUC score** through hyperparameter tuning and SMOTE class balancing.
- **Formulated SHAP (SHapley Additive exPlanations) attribution models** to extract global feature importance, identifying contract duration and payment method as top 40% attrition drivers.

CareerPilot — Multi-Pillar Recruitment Analytics & Scoring Matrix Next.js 16 • React 19 • TypeScript • Prisma • Multi-Model AI
Live: careerpilot-green-three.vercel.app | Source: github.com/gmraj11132-tech/careerpilot-ai-resume-analyzer

- **Engineered multi-stage parsing engine** normalizing unstructured PDF/DOCX resume text into structured JSON schemas, reducing data extraction anomalies by **95%**.
- **Designed 5-Pillar quantitative scoring algorithm (0–100)** computing keyword vector intersections and mapping skill gaps against dynamic Job Descriptions.

ScamShield AI — Threat Signal Analytics & Privacy-Preserving React 19 • TypeScript • Gemini 2.5 • Tesseract.js OCR • Tailwind
Live: gmraj11132-tech.github.io/scamshield-ai | Source: github.com/gmraj11132-tech/scamshield-ai

- **Constructed client-side OCR analytics pipeline with Tesseract.js**, extracting transaction text from payment receipts locally with **zero privacy leakage**.
- **Synthesized dual-engine verification:** combined Gemini 2.5 neural reasoning with offline heuristic filters to deliver verbatim risk annotations and actionable incident response advisories.

PROFESSIONAL EXPERIENCE & INTERNSHIPS

Eisystems Services — AI & Machine Learning Engineering Intern May 2026 – Jul 2026
In Association with Technex'25, IIT BHU Varanasi (Grade A Certified • ID: EIS/THX/25SP-0380)

- Engineered supervised predictive models in Python; conducted exploratory data analysis, feature scaling, and k-fold cross-validation to achieve **>92% prediction accuracy** on benchmark test sets.

NV Enterprises — Machine Learning Intern (ML Craft with Python) Jun 2025 – Jul 2025

- Constructed automated data cleaning and preprocessing pipelines with NumPy and Pandas, reducing tabular dataset ingestion latency by **35%**.

InternPe — AI & Machine Learning Intern May 2025 – Jun 2025

- Implemented classification algorithms and statistical regression models for customer behavior analysis; validated models using F1-score and confusion matrices.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering — Techno India University **8.0 / 10 CGPA** • 2023 – 2027 (7th Sem Active)

Relevant Coursework: Machine Learning Foundations, Probability & Statistics, Database Management Systems (DBMS), Data Structures & Algorithms, Object-Oriented Programming, Operating Systems.

Senior Secondary (CBSE Class XII) — SSVN School (Science & Mathematics) **64.8%** • 2023

VERIFIED CERTIFICATIONS & INDUSTRY SIMULATIONS (12 VERIFIED)

- **IIT BHU Varanasi & Eisystems:** Artificial Intelligence & Machine Learning (Grade A) | • **IBM:** Python 101 for Data Science
- **TATA Group (Forage):** Data Visualisation: Empowering Business with Effective Insights | • **EXCELRs:** Autonomous AI Agents & RAG
- **SIEMENS (Forage):** Operations & Industrial Engineering | • **SWAYAM Plus:** Personal Finance & Capital Budgeting (30 Hours)
